The official journal of the
NATIONAL ASSOCIATION FOR RESEARCH IN SCIENCE TEACHING
published by John Wiley & Sons
New York • Chichester • Brisbane • Toronto • Singapore

The *Journal of Research in Science Teaching* (ISSN: 0022-4308) is published monthly except June, July, and August, one volume of nine issues per year, by John Wiley & Sons, Inc., 605 Third Avenue, New York, New York 10016. Copyright © 1984 by the National Association for Research in Science Teaching. Executive Secretary, NARST. William G. Holliday, Executive Director, NARST-EDCI, The University of Calgary, Calgary, Alberta, Canada T2N 1N4. All rights reserved. Reproduction or translation of any part of this work beyond that permitted by Sections 107 or 108 of the United States Copyright Law without the permission of the copyright owner is unlawful. Second-class postage paid at New York, New York, and at additional mailing offices.

The code and the copyright notice appearing at the bottom of the first page of an article in this journal indicate the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients, on the condition that the copier pay for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The per-copy fee for each article appears after the dollar sign and is to be paid through the Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970. (The fee for articles published prior to 1978 is $1.00 per article.) This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Such permission requests and other permission inquiries should be addressed to the publisher.

Subscription price: $75.00 per volume. Postage and handling outside U.S.A.: $29.00 by surface; $108.00 by air. Please allow 4 weeks for change of address. Back volumes, microfilm, and microfiche are available for previous years. Request price list from publisher.

Claims for undelivered copies will only be accepted after the following issue has been received. Please enclose mailing label. Missing copies will be supplied when losses have been sustained in transit and where reserve stock will permit.

Inquiries concerning *advertising* should be forwarded to either the U.S. Advertising Representative, Daniel S. Lipner, Weston Media Associates, 37 Gray's Farm Road, Weston CT 06883, or to the European Advertising Representative, Richard Webb, REW Space Sales, Apartment 1, 2 Gladstone Road, Kingston-upon-Thames, Surrey KT1 3HD, U.K.

The contents of this journal are indexed in *Child Development Abstracts and Bibliography*, in *Current Contents/Social and Behavioral Sciences*, in *Current Index of Journals in Education*, in *Education Index*, in *Investigations in Science Education*, in *Psychological Abstracts*, and in *Social Sciences Citation Index*.

JOURNAL OF RESEARCH IN SCIENCE TEACHING

Contents

Volume 20, 1983

Issue 1, January

Research Forum

- A Mathematical Model for Mastery Learning: *Bill G. Aldridge* 1

Contributed Articles

- Effects of Diagnostic/Remedial Instruction on Science Learning: A Meta Analysis: *Russell H. Yeany and P. Ann Miller* 19
- Analyzing Arguments in Science Classroom Discourse: Can Teachers' Questions Distort Scientific Authority?: *Thomas L. Russell* 27
- Science Processes: *Fred N. Finley* 47
- A Comparison of Actual and Preferred Classroom Environments as Perceived by Science Teachers and Students: *Darrell L. Fisher and Barry J. Fraser* 55
- Development of a Test of Experimental and Problem-Solving Skills: *John A. Ross and Florence J. Maynes* 63
- Problem-Solving Analysis: A Piagetian Study: *James P. Hale* 77

Book Review

- Test of Science-Related Attitudes: *Robert L. Shrigley* 87

Comments and Criticism

- Comment on Moriera and Santos' "The Influence of Content Organization of Students' Cognitive Structure in Thermodynamics": *Jim Stewart* 91
- Comments on Explained Variance: *Ron Good* 93

Issue 2, February

Research Forum

- Experimental Inquiry and Naturalistic Inquiry: An Evaluation: *Wayne W. Welch* 95

Contributed Articles

- Effects of Individualized Assignments on Biology Achievement: *Philip L. Kremer* 105
- Predicting Science Achievement: The Role of Developmental Level, Disembedding Ability, Mental Capacity, Prior Knowledge, and Beliefs: *Anton E. Lawson* 117
- The Myth of Equality in Science Classrooms: *Jane Butler Kahle and Marsha K. Lakes* 131
- Thirty Studies Involving the "Scientific Attitude Inventory": What Confidence Can We Have in This Instrument?: *Hugh Munby* 141

- Facilitating Problem Solving in High School Chemistry: *Dorothy L. Gabel and Robert D. Sherwood* 163

Erratum

- Instruction Design in a Chemistry Laboratory Course: The Impact of Structure and Aptitudes on Performance and Attitudes: *Robert B. Kozma* 179

Comments and Criticism

- Comments on "College Chemistry and Piaget: The Relationship of Aptitude and Achievement Measures": *Ron Good* 181
- The Calculation of Effect Size in Meta-Analyses of Research: *Peter F. W. Preece* 183

Book Review

- Research in Science Education: New Questions, New Directions: *Paul Westmeyer* 185

Issue 3, March

Research Forum

- The Survey—A Research Strategy Rediscovered: *David P. Butts* 187

Contributed Articles

- Overprompting Science Students Using Adjunct Study Questions: *William G. Holliday* 195
- Effects of a Modified Mastery Learning Strategy on Achievement, Attitudes, and On-Task Behavior of High School Chemistry Students: *F. Gerald Dillashaw and James R. Okey* 203
- The Group Dynamics Approach: A Sociopsychological Approach for Testing the Effect of Discovery and Expository Teaching on the Science Achievement and Attitude of Young Egyptian Students: *Mohamed Ahmed Selim and Robert L. Shrigley* 213
- A Factor Analytic Study of the State Trait Anxiety Inventory Utilized with Preservice Elementary Teachers: *Robert D. Sherwood and Mary E. Westerback* 225
- Costs of Carrying Students to a Criterion Level of Competency in Physics: *Ralph Dressel* .. 231
- The Relationship Between Science Process Skill and Formal Thinking Abilities: *Michael J. Padilla, James R. Okey, and F. Gerald Dillashaw* 239
- Students' Recall from Science Text: *Fred N. Finley* 247
- Editorial: Defining Science Education as a Discipline: *Robert E. Yager* 261
- Science Education: A Discipline?: *Fletcher G. Watson* 263
- The Nature of Disciplines: *Paul Westmeyer* 265

Issue 4, April

Contributed Articles

- Characteristics of Personnel at Graduate Science Education Centers: Implications for the Future of the Profession: *James Joseph Gallagher, Eric Zehr, and Robert E. Yager* 271
- The Comparative Effects of Different Museum Tours on Children's Attitudes and Learning: *David R. Stronck* 283

- An Inquiry Approach to Science and Language Teaching: *Imelda Rodriguez and Lowell J. Bethel* 291
- The Effects of Causality, Response Alternatives, and Context Continuity on Hypothesis Testing Reasoning: *Anton E. Lawson* 297
- Correlates of Class Attitude Toward Science: *Tom Haladyna, Robert Olsen, and Joan Shaughnessy* 311
- A Framework for Conceptualizing Research in Natural History Museums and Science Centers: *John J. Koran, Jr., Sarah J. Longino, and Lynn D. Shafer* 325
- The Relative Effects of the Pre- and Postattention Directing Devices on Learning from a "Walk-Through" Museum Exhibit: *John J. Koran, Jr., Jeffrey R. Lehman, Lynn D. Shafer, and Mary Lou Koran* 341
- The Acquisition of Formal Operational Schemata During Adolescence: The Role of the Biconditional: *Anton E. Lawson* 347
- The Relationship Among College Science Student Achievement, Engaged Time, and Personal Characteristics: *T. Franklin Johnson and David P. Butts* 357

Book Review

- Towards a Science of Science Teaching: *Ann Howe* 367

Comments and Criticism

- Comments on "Factors Involved with Qualitative Syntheses: A New Focus for Research in Science Education": *Graham W. F. Orpwood* 369
- Comments on "An Analysis of Prospective Science Teachers' Understanding of the Nature of Science": *Richard A. Duschl* 373

Issue 5, May

- Editor's Note: *James A. Shymansky* 377
- Science Education: A Meta-Analysis of Major Questions: *Ronald D. Anderson, Stuart R. Kahl, Gene V. Glass, and Mary Lee Smith* 379
- The Effects of New Science Curricula on Student Performance: *James A. Shymansky, William C. Kyle, Jr., and Jennifer M. Alport* 387
- A Meta-Analysis of Instructional Systems Applied in Science Teaching: *John B. Willett, June J. M. Yamashita, and Ronald D. Anderson* 405
- A Meta-Analysis of the Effects of Various Science Teaching Strategies on Achievement: *Kevin C. Wise and James R. Okey* 419
- The Effect of Inquiry Teaching and Advance Organizers Upon Student Outcomes in Science Education: *Gerald W. Lott* 437
- A Meta-Analysis of Research on Science Teacher Education Practices Associated with Inquiry Strategy: *G. L. Sweitzer and Ronald D. Anderson* 453
- Science Teacher Characteristics by Teacher Behavior and by Student Outcome: A Meta-Analysis of Research: *Cynthia Ann Druva and Ronald D. Anderson* 467
- The Relationship of Student Characteristics and Student Performance as Viewed by Meta-Analysis Research: *Mark R. Malone and M. Lynette Fleming* 481
- A Consolidation and Appraisal of Science Meta-Analyses: *Ronald D. Anderson* 497

Issue 6, September

- Consistency Across Methods of Observation—An In-Depth Study of the Cognitive Preference Test: *Ehud Jungwirth* 511
- The Effect of a Teacher Questioning Strategy Training Progran on Teaching Behavior, Student Achievement, and Retention: *Paul B. Otto and Robert F. Schuck* 521
- A Comparison of Personality Attributes of Science Teachers and Medical Technologists: *M. U. Kazi and Martha K. Piper* 529
- A Study of the Perceptual Orientation of Community College Students and Their Attitudes Toward Science as They Relate to Science Achievement: *Linda W. Crow and Martha K. Piper*... 537
- Experimental Problem Solving: An Instructional Improvement Field Experiment: *John A. Ross and Florence J. Maynes* 543
- Convergent Validity of Group Tests of Cognitive Development: *Greg P. Stefanich, Roy D. Unruh, Bruce Perry, and Gary Phillips* 557
- Differences in Science Students' View of Ideal and Actual Role Behavior According to Success and Gender: *Don Kauchak and Ken Peterson* 565
- Changes in Attitudes Toward Contraceptives Concomitant with Instructional Activities in Physiology: *Ikponmwosa Owie* 571
- Convergent Validity of Group Tests of Cognitive Development: The Importance of Terminology in Teaching K–12 Science: *Robert E. Yager* 577

Comments and Criticism

- Comments on "The Development of the Image of Science and Scientists Scale": *Thomas Owen Erb* 589
- Crisis in Science Education: A Need for Introspection: *John E. Schafer* 593
- Comments on "The Development of the Image of Science and Scientists Scale": *Thomas R. Koballa, Jr* 595

Errata 599

Issue 7, October

Research Forum

- A Neuromathematical Model of Human Information Processing and Its Application to Science Content Acquisition: *O. Roger Anderson* 603

Contributed Articles

- Relationship of Sex, Achievement, and Science Self-Concept to the Science Career Preferences of Black Students: *Tina Jacobowitz* 621
- The Influence of Classroom Climate on Science Process and Content Achievement of Community College Students: *Gerry D. Haukoos and John E. Penick* 629
- Validation of a Learning Hierarchy for the Mole Concept: *Alan K. Griffiths, Heidi Kass, and Alan G. Cornish* 639
- Student Perceptions of Science Classes Taught by Males and Females: *Frances P. Lawrenz and Wayne W. Welch* 655
- Practical Work in Schools: An Examination of Teachers' Stated Aims and the Influence of Practical Work According to Students: *P. P. Lynch and V. L. Ndyetabura* 663

- A Follow-Up Power Analysis of the Statistical Tests Used in the *Journal of Research in Science Teaching*: *Thomas W. Woolley and George O. Dawson* 673
- Credibility and Persuasion: A Sociopsychological Approach to Changing the Attitudes toward Energy Conservation of Preservice Elementary School Science Teachers: *Thomas R. Koballa, Jr. and Robert L. Shrigley* 683
- An Analysis of Research Studies in which "Homemade" Achievement Instruments were Utilized: *Jean Hastings and James Stewart* 697

Comments and Criticism

- The Need for a Unifying Theory: *Anton E. Lawson* 705
- Comments on "The Factor Structure of the Longeot Test: A Measure of Logical Thinking": *Michael Shayer* 707
- Comment on Linn's "Theoretical and Practical Significance of Formal Reasoning": *John W. Renner* 709
- Suppose a World without Science Educators: *James H. Wandersee* 711

Issue 8, November

- Teacher Management Behaviors and Pupil Task Involvement during Small Group Laboratory Activities: *Warren Beasley* 713
- Interaction of Wait Time Feedback and Questioning Instruction on Middle School Science Teaching: *J. Nathan Swift and C. Thomas Gooding* 721
- Effect of Instruction Using Students' Prior Knowledge and Conceptual Change Strategies on Science Learning: *Mariana G. Hewson and Peter W. Hewson* 731
- The Elementary Level Science Methods Course: Breeding Ground of an Apprehension toward Science? A Case Study: *Richard A. Duschl* 745
- Is It Formal If It's Not Physics? (The Influence of Content on Formal Reasoning): *Marcia C. Linn, Cathy Clement, and Steven Pulos* 763
- Status of Science Education in State Departments of Education: An Initial Report: *Kenneth W. Dowling and Robert E. Yager* 771
- Development of Seriation and Its Relation to the Achievement of Inferential Transitivity: *Julia V. Clark* 781
- The Comparative Effects of Teacher-Demonstration and Self-Paced Instruction on Concept Acquisition and Problem-Solving Skills of College Level Chemistry Students: *Paul A. Eniaiyeju* 795

Comments and Criticism

- Comments on "Science Teachers' Attitudes Toward Science and Science Teaching": *Thomas R. Koballa, Jr.* 803
- Comments on Measures of the Magnitude of Experimental Effects: *Peter F. W. Preece* ... 805

Issue 9, December

- An Experimental Study of a BSCS-Style Laboratory Approach for University General Biology: *William H. Leonard* 807
- Teachers' Self Report as an Alternative Strategy for the Study of Classroom Transactions: *Pinchas Tamir* 815

- Children's Conceptions of the Changes of State of Water: *Roger J. Osborne and Mark M. Cosgrove* 825
- A Meta-Analysis of the Relationship between Science Achievement and Science Attitude: Kindergarten Through College: *Victor L. Willson* 839
- Student Control Ideology and the Science Classroom Environment in Urban Secondary Schools of Sudan: *Harold Harty and Hassan A. Hassan* 851
- Saudi Arabian Students' Chemistry Achievement and Science Attitudes Stemming from Lecture-Demonstration and Small Group Teaching Methods: *Harold Harty and Nasser Al-Faleh* 861
- Development and Validation of an Inventory to Assess Science Teacher Needs in Developing Countries: *Abdel Rahman Zurub and Peter A. Rubba* 867
- A Comparison of the Affect of Two Types of Student Behavior with Manipulatives on the Development of Projective Spatial Structures: *Herbert Cohen* 875
- Information for Contributors 885
- Author Index 887
